Hello Luis,

I have a bit of a special request that I'm inquiring if you might be able to help me with.

While getting the support of the Laborer's International Union 300 for the BID recertification, Sergio Rascon their Business Manager inquired about the possibility of getting the trees in front of the building trimmed.

I reached out to the City's Urban Forestry Division in regards to any available timetable they may have regarding any future tree service and I got no response. The BID unfortunately has no available funds in it's budget to provide a spot tree trimming of the location so I wanted to ask if the Council District perhaps had or knew of any opportunities that can utilized to help fulfill Sergio's request?

Let me know if you got anything.

Sincerely,

Moises Gomez
